### PROFILE SUMMARY

Enthusiastic third-year Information Technology student with hands-on experience in web development. Proficient in HTML, CSS, and JavaScript for creating responsive user interfaces, with solid expertise in SQL for efficient data management. Skilled in Java, with focus on writing clean and optimized code. Passionate about applying technical skills to real-world projects, and continuously learning emerging technologies.

### PROJECTS

#### Anti-Sleep Alarm for Drivers (First Year)

Designed a safety device that alerts drivers when signs of drowsiness are detected. Implemented sensor-based monitoring to reduce chances of accidents and enhance road safety.

#### The Mart - E-Commerce Website (Second Year)

Developed a responsive e-commerce platform with product listings, user authentication, and cart functionality. Built using HTML, CSS, and JavaScript to provide a smooth online shopping experience.

#### Wanderlust - Villa Booking Website (Second Year)

Created a villa booking web portal allowing users to browse, filter, and reserve vacation properties. Focused on intuitive UI, dynamic pages, and seamless navigation to improve user experience.
